### Description

Spectro Platinum 4 ATV/Snowmobile is the ultimate motor lubricant formulated with PAO and diester base oils specifically for use in high performance four stroke cycle ATV's and snowmobiles. A fully synthetic formulation with breakthrough additives technology provides a reduction in drag and friction loss and extends engine component life.

Meets all known OEM warranty requirements.

### Application

Platinum 4 ATV/Snowmobile Full Synthetic Oil is formulated specifically for use in all racing and high performance and demanding applications, especially high heat or extreme cold.

### For Racing Use

Platinum 4 ATV/Snowmobile Full Synthetic Oil should be used at the manufacturers' recommended change interval. Otherwise, adhere to the "change frequently" rule. No special steps need to be taken when switching to a full synthetic.
