

SLIP-ON/BOLT-ON MUFFLERS

ALPHA

- The highest level of fit and finish due to improved production tolerances
- Iconic Tri-Oval muffler design heritage with a revised muffler shape for improved ground clearance
- Better use of internal volume to produce the famous deep, distinct Yoshimura exhaust note
- Muffler features a large diameter carbon fiber end cap and integrated, draw-formed slash-cut muffler outlet
- Muffler design is optimized for durability and ease of servicing

ALPHA T

- The highest level of fit and finish due to improved production tolerances
- Iconic Tri-Oval muffler design heritage with a revised muffler shape for improved ground clearance
- Features a tapered conical sleeve that produces a higher "GP" tone that the standard Alpha muffler
- Muffler features a large-diameter carbon fiber end cap and integrated, draw-formed slash-cut muffler outlet
- Muffler designed for optimal durability and ease of servicing

ALPHA TAPER 2 (AT2)

- A cousin of the Alpha Taper muffler
- New styling with an all-new matte carbon fiber end cap and heel guard
- Features an all new faceted inner end cap assembly
- Provides more power and torque over OEM

R-77

- Trapezoid-shaped muffler sleeve to maximize exhaust flow volume
- Straight, single-core baffle
- Can accept low-volume sound insert
- Muffler sleeve available in stainless steel, glossy carbon fiber or satin-finish titanium
- Stainless steel or glossy carbon fiber end cap

R-77D

- Dual-outlet end cap design
- Trapezoid-shaped muffler sleeve to maximize exhaust flow volume
- Muffler sleeve available in stainless steel or glossy carbon fiber
- Glossy carbon fiber end cap

TRC

- Tri-Oval muffler shape gives a unique style and exhaust note
- Shape maximizes exhaust flow; end cap has ventilation system that dissipates heat from the exhaust tip to improve flow and performance
- Straight, single-core baffle
- Can accept low-volume sound insert
- Muffler sleeve available in stainless steel, glossy carbon fiber or satin-finish titanium
- Stainless steel or carbon fiber end cap

TRC-D

- Dual-outlet end cap design
- Tri-Oval muffler shape gives a unique style and exhaust note
- Shape maximizes exhaust flow; end cap has ventilation system that dissipates heat from the exhaust tip to improve flow and performance
- Muffler sleeve available in stainless steel, glossy carbon fiber or satin-finish titanium
- Carbon fiber end cap

TRS

- Tri-Oval muffler shape for maximized internal exhaust flow volume
- Straight, single-core baffle
- Single turn-down exhaust tip
- Can accept low-volume sound insert
- Muffler sleeve available in stainless steel, glossy carbon fiber or satin-finish titanium
- Polished aluminum end cap

YOSHIMURA SLIP-ON/BOLT-ON MUFFLERS (CONT)

RS-2

- Diamond-shaped muffler sleeve
- Large muffler core and increased muffler packing for quieter operation
- Stainless steel cone end cap

RS-5

- Undertail muffler; trapezoid-shape muffler sleeve
- Muffler shape provides maximized internal exhaust flow volume
- Straight, single-core baffle
- Can accept low-volume sound insert
- Muffler sleeve available in stainless steel, glossy carbon fiber or satin-finish titanium
- Stainless steel or carbon fiber end cap

RS-3

- Oval muffler body with single turn-down exhaust tip
- Maximized internal muffler volume for exhaust flow
- Straight, single-core baffle
- Can accept low-volume sound insert
- Muffler sleeve available in stainless steel, glossy carbon fiber or satin-finish titanium
- Polished aluminum muffler end cap

RS-9

- Parallelogram muffler body shape
- Maximized internal muffler volume for exhaust flow
- Straight, single-core baffle
- Can accept low-volume sound insert
- Muffler sleeve available in brushed aluminum or glossy carbon fiber
- Carbon fiber end cap

R-34

- Vintage style meets modern technology
- Megaphone style muffler
- Hand-formed Works Finish stainless steel housing with a CNC-machined aluminum hard anodized end cap
- 2.6% peak horsepower and 4.6% peak torque

RS-4/RS-4T

- Sophisticated, stylish muffler design
- RS-4 is a pentagonal-shaped muffler body that features a two-staged stepped baffle and carbon-fiber cone end cap
- Muffler front cap design functions as a polyresonant chamber that improves mid-range and top-end power, and keeps the muffler quieter
- Full system features stainless steel header pipes
- RS-4T mufflers feature a turn-down end cap

RS-4D

- Gives your DR-Z400SM an old-school hot-rod look
- Incredible looks, sound and performance
- System is completely fabricated by hand and TIG-welded to perfection
- Stainless steel header pipe and Y-pipe
- Dual mufflers with aluminum or carbon fiber muffler sleeve and carbon fiber end caps
- Custom Yoshimura kickstand included

RS-12 ADV

- Engineered for the demands of the off-road world
- Aggressive, intelligently designed, asymmetrical shape
- Allows maximized muffler volume to help manage sound, add performance, weight reduction and provides more clearance for tire and brake caliper
- End cap design improves durability, and eases servicing as compared to other sandwich mounting designs most commonly found in the industry
- Precision Taper Fit (PTF) insert ring makes it easy to install and remove sound inserts and spark arrestors
