Description

Golden Spectro Sno is formulated specifically for use in high performance two cycle snowmobile engines. It incorporates a blend of the worlds leading synthetic base lubricants and superior quality petroleum base oils combined with the most advanced anti-wear and anti-deposit additive system available.

Application

Spectro Golden Sno Injector oil may be used in all two cycle snowmobiles equipped with an automatic injector system regardless of year or make. No special steps need to be taken when switching to a synthetic blend oil.

For Racing Use

Spectro Golden Sno Injector is formulated specifically for use in all racing and high performance applications and may also be mixed at 50:1 for pre-mix snowmobiles.
